ADVANCED PLACEMENT CHALLENGE INDEX

The Challenge Index, developed by *Washington Post* education writer Jay Mathews, measures a public high school's effort to challenge its students. The Index is calculated by dividing the number of AP or IB or exams taken by the number of seniors who graduated in June. Exam scores are not included in the calculation and exams taken by all students, not just seniors, are counted. The rating is not a measurement of the overall quality of the school but illuminates one factor that many educators and researchers consider important. For purposes of this calculation, the WCSD graduating class includes all students who earned a diploma plus those students who had enough credits to graduate but failed one or more sections of a state-mandated graduation exam. A Challenge Index of 1.0 or higher meets the benchmark defined by the measure's author.
